SteadyStud RFQ – Vendor shortlist (10)

Goal: CNC milling (Option A) and/or plate/profile + secondary ops (Option B), with optional anodize and laser marking/etch.

US / North America

1. **Xometry (US network)** – CNC machining, sheet cutting, finishes
   https://www.xometry.com/
   CNC quote portal: https://www.xometry.com/capabilities/cnc-machining-service/
2. **Protolabs (US)** – CNC machining, fast-turn, anodize options
   https://www.protolabs.com/services/cnc-machining/
3. **Fictiv (US network)** – CNC machining, online quoting, DFM feedback
   https://www.fictiv.com/cnc-machining-services
4. **eMachineShop (US)** – CNC + finishing, RFQ/quote workflow
   https://www.emachineshop.com/
5. **SendCutSend (US)** – plate/sheet profiling (laser/waterjet) with online quotes (good Option B benchmark)
   https://sendcutsend.com/

Overseas / global

6. **RapidDirect (global/China)** – CNC machining + laser engraving/finishing services
   https://www.rapiddirect.com/
7. **PCBWay (China)** – CNC machining service with online quoting
   https://www.pcbway.com/rapid-prototyping/
8. **Xometry Europe (EU network)** – CNC + laser cutting services
   https://xometry.eu/
9. **Dadesin (China)** – CNC machining service (quote request)
   https://www.dadesin.com/cnc-machining.html
10. **JLCCNC (global/China)** – CNC machining with online quote; finishing options often include anodize + laser marking
    https://jlccnc.com/cnc-machining-quote

    Notes: - Several entries are "manufacturing networks" rather than single shops; they're still useful for fast pricing and DFM. - If you want a list of *individual* machine shops (non-network), tell me preferred geography (e.g., US West/Midwest) and whether ITAR/DFARS matters.
